INTRODUCTION

The Fourth Bulletin of North Carolina Morbidity Statistics, covering the calendar year 1935, contains tabulations similar to those in previous Bulletins. In addition to the usual tabulations there is included in this Bulletin a special table for poliomyelitis in 1935, giving an analysis of reported cases according to certain age groups, race and sex, with case rates.

In 1935, beginning the middle of May and continuing through August, North Carolina had an unusual prevalence of poliomyelitis concentrated largely in the east central section where it reached epidemic proportions. During this period reports from other sections of the State varied from a normal incidence to an incidence slightly higher than normal. The peak of this epidemic occurred in July with 229 reported cases. 675 cases were reported for the year. The highest incidence recorded for any year prior to 1935 was in 1929 when 133 cases were reported. Because the 1935 epidemic was an unusual occurrence for North Carolina and for latitudes this far South it is felt that the table referred to above showing the analysis of reported cases should be of interest now and in years to come.

The 1934 low record of typhoid fever morbidity (464) was marred in 1935 by a rather heavy increase in reported cases (645). However, the mortality rate for this disease has decreased, which probably would indicate better reporting in 1935 than in 1934.

Another indication that reporting in 1935 was better than the previous year is the fact that a larger number of counties reported in 1935 than in 1934. The percentage of physicians reporting, however, was about the same for both years.

The 1720 cases of diphtheria reported in 1935 is the lowest number recorded for any year since 1918, the first year that morbidity records were kept in this State. This is indeed encouraging, although there is yet room for considerable improvement in the control of this disease.

In September 1935 tuberculosis was made reportable to this Department rather than to the North Carolina State Tuberculosis Sanatorium as has been the procedure heretofore. It is felt that this change in reporting this disease has a distinct advantage because of the follow-up work that can be done by the local health officer, as all tuberculosis report cards now must pass through his office before they are forwarded to this Department.

It is hoped that with each succeeding issue this Bulletin will become more useful, especially as a basis of comparison with morbidity statistics for previous years.

February 19, 1936
Raleigh, N. C.

TABLE OF CONTENTS
FOURTH MORBIDITY REPORT - 1935
NORTH CAROLINA

.....

Table I. Reported cases for State as a whole of
33 reportable diseases, by month, 1935.....Page 1

Table II. Reported cases for each of eleven cities
of eleven major reportable diseases, by
month, 1935Pages 2-5

Table III. Reported cases, 1935, by county, by month,
for 27 reportable diseases:

Chancroid -	page 6	Pellagra -	pages 23-24
Chicken Pox	pages 7-8	Poliomyelitis -	" 25-26
Diphtheria -	" 9-10	Rabies -	" 27
Dengue -	page 11	Rocky Mtn, Sp. Fev. "	27
Dysentery (Bac.) "	11	Scarlet Fever -	" 28-29
Endemic Typhus "	12	Sep. Sore Throat -	" 30
German Measles "	13	Smallpox -	" 31
Gonorrhea -	" 14-15	Syphilis -	" 32-33
Influenza -	" 16-17	Trachoma -	" 34
Measles -	" 18-19	Tularemia -	" 34
Meningitis -	" 20-21	Tuberculosis -	" 35-36
Ophthalmia Neon. "	22	Typhoid Fever -	" 37-38
Para-Typhoid Fev. "	22	Undulant Fever -	" 39
Whooping Cough - pages 40-41			

Table IV. Reported cases of 33 communicable diseases,
by age, for 1935 Page 42

Table V. Reported cases of 33 communicable diseases,
by race and sex, for 1935 Page 43

Table VI. Reported cases of Poliomyelitis for 1935,
by age, color and sex, with rates..... Page 44

NOTE: Counties not listed reported no cases.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities related to the project. It emphasizes the need for transparency and accountability in financial management.

2. The second part outlines the specific steps involved in budgeting and forecasting. This includes identifying key areas of expenditure, estimating costs, and setting realistic targets for revenue and expenses.

3. The third part focuses on monitoring and controlling the budget. It describes how regular reviews and reports can help identify variances from the plan and allow for timely adjustments.

4. The fourth part addresses the challenges commonly faced during the implementation phase. These may include unexpected cost increases, delays in funding, or changes in project scope. Strategies are provided to manage such risks effectively.

5. Finally, the document concludes by highlighting the benefits of a well-managed budget. Proper financial control ensures that resources are used efficiently, leading to the successful completion of the project within the allocated timeframe and budget.

RECEIVED BY THE DIRECTOR, FBI, WASHINGTON, D. C. 20535
